Subject: <APX> MOL EFFICIENCY V.066W / REQUEST FOR USCG WAIVER DUE TO NON-AVAILABILITY OF COMPLIANT FUEL OIL AT NA ECA

TO: NLI NYC
CC: AS ADDRESSED
FM: PVOC – J.GARIBELLO

Good day,

As informed earlier today, MOL EFFICIENCY does not have enough LSFO on board to comply with NA ECA fuel oil requirements on arrival at NYC.

In this connection, we are now forwarding related documentation/reporting to apply/request for waiver from USCG to allow the vessel arrive at NYC using HFO and will take necessary LSFO and LSMGO at NYC.

Therefore, please review and help send this information to concerned parties at USCG and advise if further reports/information is required from us or Master.

We will arrange bunkering 1750mt LSFO and 150mt LSMGO at NYC, ETA: Dec 30th.

Appreciate you keep us posted as the situation develops.

Thank you for your utmost cooperation in this very important matter and await your earliest outcome.

Best Regards,
Jasmín Garibello
